COURSE CONTENT	
<b>Short course description:</b>	The course is an ideal opportunity and start for a company to integrate the topic of biodiversity into its operational (environmental) management and to take measures for the sustainable use of resources and the protection of nature. The Biodiversity Check examines, in accordance with the procedures of the environmental management systems EMAS III and ISO 14001, possible negative impacts of individual company divisions, production sites, products or processes and identifies potential risks and opportunities. However, the check does not replace a biodiversity impact assessment
<b>Competences and skills:</b> (→ What will be learned)	The check serves as an initial orientation to identify impacts and interdependencies of the various corporate divisions on biodiversity
<b>Specific course topics:</b> (→ E.g. circular economy, plastic, food, energy, water, waste, biodiversity, green procurement, culture, etc...)	Biodiversity conservation
